

December 1<sup>st</sup> 1885- continued

Organization of the classes early in October there have been six classes under my charge, which, with the hours given to each per week, and the number in the classes, are here shown

Freshman Year	class in Zoology (Scientific Course)	students	4	hours	2
	„ „ Chemistry (Arts & Scientific „)	„	4	„	2
Senior Year of Preparatory Dept.	Physiology	„	11	„	2
	Chemistry	„	13	„	1
Junior Year of Preparatory Dept.	Physiology	„	10	„	2
	Physical Geography & Chemistry	„	10	„	1

Instruction is given by lectures, oral and written examinations, experiments, illustrations and the use of the microscope. A large quantity of minerals, fossils and other scientific material has lately been received for museum and laboratory work and this will soon be unpacked and utilized. A much more suitable room than that heretofore containing the collections, has been set apart for a museum, and it is expected that ere long it will be supplied with proper cases. A chemical and a biological laboratory are also being fitted up with tables, basins and shelves. With limited times and means much has been done; but, much yet remains to be done. Very respectfully (signed) Henry Montgomery Professor of Natural S\*ciences.

Report Prof  
Mathematics  
Physics &  
Astronomy

Report of the Professor of Mathematics [sic], Physics and Astronomy. Grand Forks, D.T. Nov. 14<sup>th</sup> 1885.
